ABOUT

I'm a passionate and creative web developer with 2.7 years of experience in crafting beautiful, functional, and user-friendly websites. My expertise lies in HTML, CSS, JavaScript, React, and Redux. I love turning ideas into interactive online experiences and solving complex challenges to deliver outstanding digital solutions.

WORK EXPERIENCE

SUAVIS INC

2022 - 2023

ASSOCIATE SOFTWARE ENGINEER

VIAVI SOLUTIONS | JAN 2023 - TILL DATE

Responsibility:

- Working closely with back-end developers, UI designers, and other team members to achieve project goals.
- Implementing responsive design principles to ensure that websites and applications function well on different screen sizes, including mobile devices and desktops.
- Deployment For various interfaces. Checking OSC Admin, Edit and Update message bases, Email Trigger Flow, etc.

RHEEM CHILE & SPENDID | JUN 2022 - DEC 2022

Developing User Interfaces: Design and implement user interfaces for web applications using React.js, ensuring high performance and responsiveness.

Component Development: Build reusable and scalable components and front-end libraries for future use across projects.

State Management: Utilize state management libraries like Redux or Context API to manage application state and ensure seamless user interactions.

SKILLHUB IT SOLUTIONS

2021 - 2022

WEB DEVELOPER | 2021 - 2022

Translate design mockups and wireframes into fully functional web pages using HTML, CSS, and JavaScript. Ensure that the website design is visually appealing, consistent, and responsive across various devices and screen sizes. Implement user interface elements such as buttons, forms, navigation menus, and interactive components. Optimize user interactions to create smooth and intuitive experiences.
